

Type 115/224/335

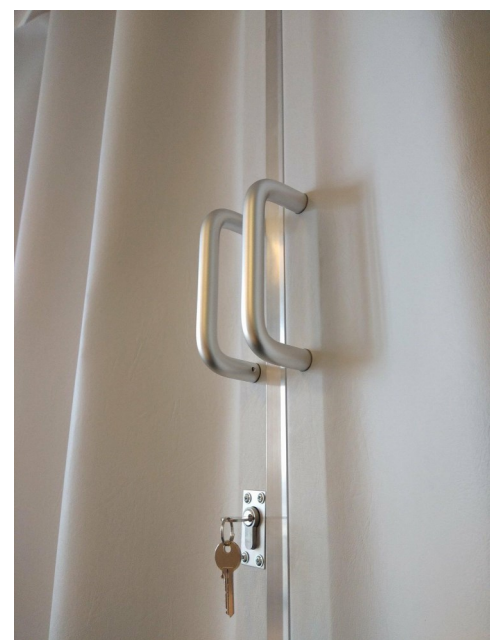

Fabric Concertina

Fabric folding partitions are a cost efficient room sub-divider. Their lightweight concertina design offers a quick and easy to use system with ample sound proofing, without having to break the bank. The systems' durability and ease of operation, suits itself for multiple applications, particularly in those busy educational environments such as schools and nurseries, as well as village halls, hospitals etc.

The system's fabric coating is fully washable, containing antimicrobials for protection against bacteria, and is available in a wide range of colours to suit any environment.
